
HEALTH

Health Systems Agencies will come into existence within the next year. Their creation will be based on federal legislation passed late last year, the National Health Planning and Resource Development Act of 1974 (Public Law 93-641).

This legislation provides an excellent opportunity for persons and organizations working in health planning and those that would like to do so. Many important issues need to be decided if the community is to develop a representative and effective health planning program.

The existing health planning agency in San Francisco -- the Comprehensive Health Planning Council, is working for an orderly public education and the various ways in which it might be implemented. For this reason, SFCHPC is sponsoring a series of open meetings:

Sept. 25 7-9:30 p.m. Laguna Honda School, 7th Ave.
Sept. 29 2-4:30 p.m. Dept. of Public Health, 101 Grove St.
Oct. 2 7-9:30 p.m. Anna Waden Public Library (Third St. corner of Revere)
